HWBOT Announces Official Partners for World Championship 2016 Final

Partners Include AOC, Apacer, ASUS, Corsair, GIGABYTE, G.SKILL, HyperX, Intel, KLEVV, MSI, Philips, Seasonic, Streacom and ZADAK511

November 15, 2016, Taipei, Taiwan - HWBOT, an organization regulating international Overclocking competitions and rankings today officially announces the official sponsors of the HWBOT World Championship 2016 Final, plus details about the event schedule and live stream broadcast. The World Championship 2016 Finals is the climax of this year's HWBOT World Tour, bringing together eight of the world's best overclockers to discover who will be Overclocking World Champion of 2016.

“We are honored to welcome several of the PC industry’s most respected companies as official partners for the HWBOT World Championship,” commented Pieter-Jan Plaisier, Director at HWBOT. “The HWBOT World Tour and Finals would not be possible without the valued support

of industry partners who recognize the important role that Overclocking plays within the broader enthusiast segment.”

HWBOT World Championship: Official Partners

Processors - Intel®

Intel has been a valued partner throughout the HWBOT World Tour 2016. We are delighted to welcome their support once more in the Final where they are generously providing unlocked Intel® Core™ i5 6600K processors for the duration of the contest.

Motherboards - ASUS, GIGABYTE and MSI

Each overclocker competing in the World Championship Final will use the same brand of motherboard that was used in qualification. Intel Z170 motherboards from ASUS, GIGABYTE and MSI will be used in the Final.

Memory - Apacer, Corsair, G.SKILL, HyperX, KLEVV and ZADAK511

In terms of system memory, we are fortunate to have the support of several of the industry's most respected memory vendors. Apacer, Corsair, G.SKILL, HyperX, KLEVV and ZADAK511 will provide DDR4 memory kits. Overclockers will compete using the same brand as used in qualification.

Storage - Apacer, HyperX and ZADAK511

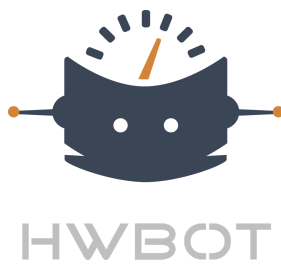

Pre-prepared solid state drives from Apacer, HyperX and ZADAK511 will be provided to overclockers to use in the contest.

Power Supplies - Seasonic

Seasonic have been the official power supply partner for the entire duration of the HWBOT World Tour 2016. Seasonic will again provide Seasonic Platinum Series PSUs for the Final, ensuring that regardless of how hard the systems get pushed, stable power delivery will not be an issue.

Monitors - AOC and Philips

AOC and Philips have agreed to provide high quality monitors for the Finals.

Benchtables

Streacom have generously agreed to provide Open Benchtables for the Finals. Co-developed with HWBOT and OverClocking-TV, the Open Benchtable is a versatile, highly integrated and lightweight solution designed by overclockers, for overclockers.

HWBOT World Championship Final: December 4th 2016

The World Championship Final is truly a quest to find the best overclocker of the year. The event will be held at the Caseking headquarters in Berlin, Germany on December 4th.

The contest will feature the six World Series winners from each of the six HWBOT World Tour 2016 events. These six are now joined by Lucky_n00b (Indonesia), winner of the HWBOT World Championship Wild Card Contest. The eighth contestant will be the winner of the ROG Camp 2016.

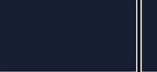

Meet the Contestants

- PXHX (Brazil)
- DrWeez (S. Africa)
- Bullshooter (Germany)
- Marc0053 (Canada)
- Xtreme Addict (Poland)
- Hazzan (Indonesia)
- Lucky_n00b (Indonesia)
- TBD (ROG Camp 2016 winner)

You can find information about the contestants and their respective hardware partners in the image below. Note: Partners are not final and may be subject to change.
