

Join HWBOT during Gamers Assembly and Let Overclocking Unleash Your PC's Performance

The HWBOT World Tour Hosts Performance Tuning Workshops and Competitive Overclocking at Gamers Assembly, Poitiers - France

March 28, 2017 - HWBOT, an organization regulating international overclocking competitions and rankings returns to Gamers Assembly for the third leg of the HWBOT World Tour 2017. The quest is to help French gamers and enthusiasts master the art of 'Performance Tuning' while also exposing them to the exciting world of competitive Ambient and Extreme Overclocking.

"We return to Gamers Assembly in France for one of the biggest Gaming events of the year, giving French gamers the chance to get maximum performance from their PCs," commented Pieter-Jan Plaisier, Director at HWBOT. "We are really looking forward to this wonderful opportunity to showcase the world of Overclocking."

Performance Tuning Workshops

A key mission of the HWBOT World Tour 2017 is to interface with gamers and PC enthusiasts to teach them how to get more performance from their gaming rig. PC systems will be available at the GA Village area where attendees will be treated to free workshops with professional tuition from Elite Overclockers. After you have learned the basics, it's time to get hands on and

compete with your peers. Score as highly as possible in the Intel XTU benchmark and you could win some fantastic prizes.

Overclocking World Championship – Poitiers 2017 Qualifier

Europe's Elite and Extreme Overclockers will be given the opportunity to compete in the Overclocking World Championship Qualifier contest. The contest winner will walk away with a ticket to the Overclocking World Championship Final at the end of the year – a fantastic chance to compete against overclockers from around the world for the right to be crowned Overclocking World Champion of 2017.

Poitiers - 2017: Event Partners

The HWBOT World Tour, Poitiers 2017 event would not be possible without the valued support of the following partners*:

Seasonic

Respected Power Supply manufacturer Seasonic is the official Power Supply partner of the HWBOT World Tour 2017. The latest Snow Silent Power Supply series will power the Overclocking World Championship Qualifiers as well as Performance Tuning Workshop systems during the Poitiers 2017 event.

Streacom

Streacom offer a range of complimentary computer accessories that includes the Open Benchtable. Co-developed by Streacom, OC-TV and HWBOT the Open Benchtable is a lightweight and toolless benchtable designed specifically for portability and ease of use. All Performance Tuning Workshop systems will feature an Open Benchtable from Streacom.
